FROM: RICHARD C. TRIGG

SUBJECT: PY 2000 Automated Past Effectiveness Report for Center
 Contractors/Operators

1. Purpose. To advise the Job Corps community of the issuance of the Automated Past Effectiveness Report for Center Contractors/Operators for PY 2000.
2. Background. In 1998, Job Corps initiated an automated past effectiveness system to increase consistency in the use of past effectiveness information in the procurement process. The system provides quarterly reports for center operations and for outreach/admissions and placement contracts. Due to several competing priorities for the Job Corps Data Center (JCDC), the last automated report issued covered the period ending June 30, 2000.

An Automated Past Effectiveness Report for Center Contractors/Operators has been completed for the period ending June 30, 2001. The report is being distributed to the Job Corps community by the JCDC. A report for outreach/admissions (OAs) and career transition services (CTS) contractors, for the period ending June 30, 2001, will be available shortly.

The national office is currently in the process of revising and updating the past effectiveness system using the input received from the contractor community during the 2001 Alpha Conference. The new system will retain several features of the current

system and will include both automated and written narrative components. Prior to implementation of the new system, the contractor community will be invited to provide comments and recommendations.

3. Action. Please review the Automated Past Effectiveness Report for Center Contractors/Operators for the period ending June 30, 2001, and the supporting data issued with the report. Contracting Officers shall begin using the data for procurement purposes immediately.

4. Expiration Date. Until superseded.

5. Inquiries. Direct any inquiries to Stephen Eure, at 512-393-7216 or e-mail to EureS@jcdc.jobcorps.org.
