

OASIS July 15th Release

The following items are software corrections, changes and enhancements in the July 15th release of OASIS. Detailed release notes were distributed to OASIS users prior to the release.

1. An **Arrival Report** has been added to all roles in OASIS. This report will provide arrival confirmation as well as length of stay and current status information.
2. Explore Date, Comments and LMI link have been added to the **Vocational Preferences** screen.
3. **OASIS student information** screens now have the capability to gather Cell Phone, Pager, Email address as well as driver's license status and expiration date.
4. **Temporary SSNs** will now be required to begin with 3 leading zeros.
5. Users will be able to print blank institution/court forms.
6. Contract managers will be able to access the **View Pending Arrivals** option just like the counselors.
7. The **Mandatory Quality Control** has been corrected to force Counselor's with this setting to send their files to QC before assigning to a center.
8. **The Denial Letter** header has been corrected and some enhancements done at user requests.
9. Duplicate screeners have been removed from the **Reassign Counselors** "Contract/Screening Office" drop down.
10. The **student allotment** form has been corrected to populate information completely.
11. Existing **Staff Information** will now display when a staff record is accessed.
12. The Center name has been added to the **Process Review** list.
13. The **Assign Prospect** will now display up to 500 prospects. It is important that these are cleared as quickly as possible.
14. Users will now be able to print **Multiple 655** (Court/Institution form).
15. When application is at a **pending waiver status**, the application (except the Case Notes) be 'read only' to the counselors.
