

Pilot Center Comments

In the short duration of the pilot, the pilot centers have already reported several benefits to operating under the Career Success Standards. Examples of comments received from Center Directors include:

- Gove Aker of Collbran Job Corps Center, a pilot site, stated “the Standards get at the whole human being with the skills students really need for success.” No matter how well a center is performing, the Standards provide a foundation to build-on a job-readiness centered culture.”
- Bobby Brown of Detroit Job Corps Center affirms that “this has helped change the center’s culture from a compliance driven culture to a more constructive culture in which all members are encouraged to interact with others and approach tasks in ways that help them meet their higher-order needs for satisfaction and growth”. We have experienced improved performance outcomes for staff and students since the Standards became the way of life at Detroit Job Corps.”
