

Patient Protection and Affordable Care Act (ACA) and Health Insurance Marketplace (Exit Script)

During your stay in Job Corps you probably received a lot of services in the Health and Wellness Center. Now that you are leaving Job Corps and will no longer have access to the free health care provided in the Health and Wellness Center, it is more important than ever that you have health insurance.

Hopefully you will soon have a job that provides health insurance and other benefits. If health insurance is offered to you at work, it is important that you sign up for it even if it seems expensive.

If you do not yet have a job or if your job does not offer health insurance, you can visit the Health Insurance Marketplace at <https://www.healthcare.gov/marketplace/individual/> or call 800-318-2596 to see if you qualify for Medicaid or reduced-cost health insurance.

If you do not have health insurance and you have a job, you may have to pay a fine. To avoid paying this fine, it is important that you find health coverage.

Follow the steps on the **Accessing Health Care After Job Corps Checklist** to make sure you are covered. Continue with this form until you can check a box. As soon as you check a box, you are finished with this checklist.

If you have any questions, please let me know.
