

Patient Protection and Affordable Care Act (ACA) and
Health Insurance Marketplace
(CTS Script)

You received a lot of information about health insurance while you were enrolled in Job Corps. I want to provide you with another reminder that it is important that you have health insurance. Hopefully, your job provides you with health insurance. Please sign up for the health insurance plan if they provide it.

If your employer does not provide health insurance or you do not yet have a job, we encourage you to explore your options in the Health Insurance Marketplace at <https://www.healthcare.gov/marketplace/individual/>.

If you have any questions, please let me know.
