FROM:	DEBRA A. CARR Acting National Director Office of Job Corps DEBRA CARR Digitally signed by DEBRA CARR Date: 2020.10.27 12:43:04 -04'00'

- SUBJECT: Job Corps GSA Leased Vehicle Fleet Right Sizing
 - 1. <u>Purpose</u>. To provide guidance on resizing the Job Corps vehicle fleet.
 - 2. <u>Background</u>. This Program Instruction Notice (PIN) applies to government vehicles used by contract centers and Outreach and Admissions/Career Transition Services (OA/CTS) contractors. General Services Administration (GSA) vehicle leasing and operating costs are large expenses for Job Corps. In PY19, Job Corps' GSA leased vehicles cost more than \$14 million.

Job Corps is working with center operators to reduce the number of GSA leased vehicles. Job Corps has already made some progress, and the start of the GSA leased vehicle acquisition cycle in November provides an opportunity to further optimize Job Corps' fleet. Job Corps is pursuing a strategy of making targeted reductions and changes based on the types of vehicles leased, average miles driven per month, and purpose of the vehicle.

The Job Corps National Property Officer analyzed the usage of vehicles through January 2020. Job Corps conducts this analysis annually in or about July. More than half of the vehicles in the fleet are underutilized. Chapter 6.7 in the Job Corps Policy and Requirements Handbook (PRH) considers a vehicle underutilized when it is used less than 800 miles per month. The following factors were considered in identifying and reducing the number of underutilized vehicles:

- a. Vehicle types and the total number of vehicles in each type.
- b. Total mileage for each vehicle and vehicle type.
- c. Monthly lease costs.

- d. Vehicle types that could be returned without replacement due to low utilization and are not being shared between departments/offices.
- e. Vehicles used primarily for one-way transportation and not used for long periods.
- f. Vehicles, especially large buses, which are used only on the weekends.

Job Corps, based on its most recent utilization analysis as of the release of this PIN in October 2020, could have realized a savings of about \$3 million (or about \$250,000 per month) in PY 2020. This would amount to an estimated 21% lease savings out of the \$14.8 million that Job Corps set aside for GSA Vehicle Fleet costs that year. Some additional savings could have been realized with less fuel and repair costs.

- 3. <u>Action</u>. Center operators must reduce the number of, and/or eliminate, underutilized vehicles listed in Appendix A. Center operators must implement these actions during the GSA leased vehicle acquisition cycle which started November 7, 2020, and ends January 7, 2021. If a vehicle on the Appendix is thought to be needed to accommodate social distancing related to COVID-19 transportation needs, the Center must reach out to the contacts listed in paragraph 6 to make this known. <u>All vehicles listed in Appendix A are to be returned to GSA using the following process</u>:
 - a. If the lease vehicle's agreement shows that the vehicle is eligible for replacement this fiscal year, then choose "<u>turn in/do not replace</u>" within the CAM system.
 - b. If the lease vehicle's agreement shows that the vehicle is NOT eligible for replacement this fiscal year, contact the Local GSA Field Service Representative (FSR). The FSR will find another customer interested in the vehicle.

It is unrealistic that all underutilized vehicles will be returned or transferred between November 2020 and January 2021. Job Corps is working with GSA to identify other methods to eliminate or transfer vehicles. Centers will be monitored to ensure processing in accordance with paragraph 3 "a" and "b", of all their identified vehicles.

- 4. Centers must implement the following actions to optimize use of remaining vehicles:
 - a. Center operators are to conduct a usage study to determine appropriate sized vehicles for routine or regularly scheduled runs and emergency uses. *The vehicles and the number of vehicles should be able to accommodate social distancing.*
 - b. Vehicles are to be used 7 days a week. No vehicle should be used only on weekends.
 - c. Minimize one-way transportation. Use the following guidelines:

- i. Consolidate vehicle runs;
- ii. If a job site is under 25 miles from a Job Corps Center and operators use a vehicle to drop off students, tools, and supplies to the job sites, operators must return that same vehicle to the center for others to use during the day. Center operators must avoid parking a vehicle at a job site all day. Exceptions to these guidelines are listed below and are to be annotated in the daily log of the vehicle:
 - a) Vehicles carrying 7 or more students; and
 - b) Vehicles which will transport more than 200 pounds of materials, supplies, and/or tools to a site.
- 5. Expiration Date. Until superseded.
- 6. <u>Inquiries</u>. Question about this Instruction Notice should be addressed to Patricia Prior at prior.patricia.j@dol.gov or Jose Velazquez at Velazquez.Jose.A@dol.gov.

Attachments: Appendix A: List of vehicles to be eliminated
